

Help us save water

In our area, we need to save water right now. We've had too little rain in recent years. Water for food, drink and hygiene is a priority.

Please ...

... do not wash dishes under running water

... turn off the water while brushing your teeth

... take short showers and turn off the water when using shampoo and soap.

... do not fill your bath tub

... only wash the car at a car wash that recycles water

Every drop of water is important!
